DSCA € installation manual for Windows [see English pdf] || [View Malayalam PDF] In the Windows operating system, the digital signature must be configured first and the record must be done to use it. There are five steps to register the digital signature 1. Installation (DSC driver Tool, DSC Signer) 2. Browser Configuration 3. Bins Registration/Renewal 4. SPARK Registration/Renewal 5. o s.e. submission. 1. Installation (DSC driver TOOL, DSC SIGNER) below, are the prize for the installation of the utilitarian DSC Signer. Oracle Java 8 Execution Time Driver for Token DSC on Windows 1.1 Driver Token Driver Installation The explanation for the Proxkey Driver installation process is explaining below. Other tokens DSC have a similar configuration procedure for the installation of the token driver. First connect the DSC token. Then click on the right mouse button on the WD in the Start menu. After that, choose à € c€nstaale or run the Mother's program . Install the driver concluding the configuration as mentioned above. Once the installation is completed, a complete installation window will appear and click on the finish. 1.2 SIGNER DSC Installation The link to download Signer DSC © [Download]. The token driver must be successfully installed before installing Signer DSC. To install the Signer DSC software, twice click on the àcone, a message will be displayed on the screen to configure the browser before installation. Click the OK button to proceed. Change the install of the dsc botan click on the installation botan. Change after completing the installation, a window appears as shown below. Then click on the Avanation botan. After the successful installation, a àcone for the DSC Signer Will Will Seen on the right side of the taskbar (if the token is connected). To change the token type, click the right of the mouse in the Signer DSC and click Configurations. So, then selects the appropriate token. Ama - Then remove the device and connect the device and connect the device once more. 2. The browser configuration browser must be configured before installing Signer DSC. Configuration must be different for each browser. Mozilla Firefox Open Mozilla Firefox and type the following in the address bar and press the ENTER key on: à € 20 À ·Preferring#Privacy The window appears and click on the display certificate. ANA IN NEW JANEIA CLICK ON THE IMPORTE OF IMPORT IN THE AUTHORIZATION • ES. Import the CA.crt root file certificate in the SSL folder, which has already been downloaded with Signer DSC and click on the open botan. Select the option Trust this CA to identify sites in the new window and click Ok Botan. When configuration is completed, Mozilla Firefox is ready for digital signature using DSC Signer. Google Chrome Open Google Chrome and type the following in the address bar and press the Enter key. Chrome: // flags/#allow-insecure-localhost activates the yellow color link in the flower window. After that, click on the relate botan seen at the bottom of the page. When configuration is completed, Google Chrome is ready for digital signature using DSC Signer. Internet Explorer No Internet Explorer Browser The certificate must be inserted as in Mozilla Firefox. Therefore, click on the Tools menu on Internet Explorer Browser. , me CSD ofÀŠÀpo ad ofÀŠÀavoner/ortsiger ovon me euqilc , adigues mE . krapS arap nigol o s'Àpa ofÀŠÀartsinimda ed unem o enoiceles . krapS on latigid arutanissa ed ovitospid od ofÀŠÀavoneR/ortsiger arap ofÀŠÀavoneR/ortsiger KRAPS 4 . ofÀŠeuq me oruseT o arap SMIB od adaxiab otmeticehocer ed atrac a eivnE . Click New DSC Registration/Renewal for registration. Once the validity period is registered, it can be seen in this window. After clicking on the registry option, a window appears to enter the Token password of the device. In this window enter the password and click Ok button. A new window, with the name as in the Token and the validity period of the certificate will be displayed on the screen. Select the check box and click OK button. If the name is not matched, then pass the menu. Service Affairs- Personal details- Display service details. Then check the aadhar details and update it. Then register again. If the device (Token) is replaced or the DDO has changed, then the same option (New DSC Registration/Renewal) can be used for renewal. If the SPARK registration is completed, the accounts can be sent to the treasure. 5. And submission. In Accounts-Bills-E Send Bill menu, before clicking Approve and Send button you need to enter the Token password as mentioned above. Enter the Token password and click Next button. A message will appear there that shows submission And it is successfully completed. DDOs can take DSC in every working day by prior appointment of the wise coordinators of the corresponding District If you receive an error message when you try to download and install Google Chrome, try these fixes. Fix most installation errors Get help with a specific error message Can't connect to the Internet on Windows To fix, add the firewall, anti-virus or proxy software to the exception list of your security software. If you use Windows Firewall, follow these steps: On Windows computer, click the Start menu: or . Open the app Windows settings. In the "Find a setting" search box, type Firewall. Click Allow an app through Windows Firewall. If you need help, contact your system administrator. Stop GoogleCrashHandler.exe from running on Windows GoogleCrashHandler.exe sends information about crashes to Google when they affect your Google applications. If you doneÀÀÀI want to send crash information to Google, turn off the sending of usage statistics for your computer. Visit the product's Help Center for more information. Can't install because you're not an administrator on Windows To check if you're an administrator: On your Windows computer, click the Start menu: A or . Click Run. EnterÀ control userpasswords2 Click OK . Check if your username has the eÀÀÀÀAdministrators Group.eÀÀÀÀ To get administrator access, contact your system administrator. Error 4, 7, 12, 13, 31, 35, 57, 102, or 103 If you're having problems installing Chrome on your computer, you may see the following errors: Error 4: A newer version of Chrome is already present on the computer. Errors 7, 12, 13, 35, 57, 102, 103: The install failed for unknown reasons. Error 31: Could not re-install Chrome. Try the possible fixes below. Step 1: Check if your computer has enough space You might run into a problem if there's not enough space on your computer for Chrome. Clear up hard drive space by deleting unnecessary files, such as temporary files, browser cache files, or old documents and programs. Download Chrome again from google.com/chrome. Try reinstalling. Step 2: Turn off your antivirus software Some antivirus software can prevent Google Chrome from installing on the computer. Turn off your antivirus software. Download Chrome again from google.com/chrome. Try reinstalling. Turn your antivirus software back on. If you can't install Google Chrome with your antivirus software turned off, you might need to upgrade your antivirus software. Step 3: Download Chrome again Download Chrome again from google.com/chrome. Try reinstalling. If you can't complete these steps, contact your system Cannot install If you have an error when installing or updating your app, here's how to get help: Visit the Google Help Forum, search for your app and help others. Search for information about this error. You're not working yet? Get more help at the Chrome Help Forum. Or, learn how to fix issues by updating Chrome. Research Clear Closed search Google apps Main menu
